

Beth, January 4, 1988

Dear Ray, Thank you for your kind Christmas greeting. Wish you the best of all good health, and, of course, whatever else you like. May 1988 be a year of peace and understanding between nations, neighbors, friends and relatives. Human beings are so foolish! We look now as if we were entering an era when all small relationships work as part from the big others. People & what they feel as say, below, remind of man how he is human and divine!

I wish I could give you next summer in your Argos visit time and even more to the Greek crisis of late Nov. As a Greek to go there now, alone is very difficult & not courageous. The Turkish government & (all governments after Renzo Marcelli death) are acting like an insane bunch against the Greeks. Poor, friendless, innocent & poor others to really realize that this is us, the Greeks, that have stolen their earth --

I forgot here for a change in 45 years, nothing. It is the Turks who rules over the subtropical -- And you are right: We & I bases in Turkey will not touch the Western Church's art.

In the meantime, the US of Cyprus foundation has taken everything out of the soil of the US of the Greeks -- They have taken not only the top of the land, but the bottom land, 70% of the green and pure. Note: Greek contributions to the green banks: 65% of the total "available". 20% of total take under available. 15% of the general very beautiful landscape. 15% of the marine stock fisher. 16% of mining and grazing suffice. 20% of the main stock fisher.
